# TUNNELLING AND UNDERGROUND SPACE TECHNOLOGY

*Tunnelling and Underground Space Technology* is a combination of two previous Pergamon Journals: *Underground Space*, the official journal of the American Underground-Space Association, published by Pergamon Press in cooperation with the University of Minnesota from 1975 to 1985 (Volumes 1–10); and *Advances in Tunnelling Technology and Subsurface Use*, the official journal of the International Tunnelling Association, published by Pergamon Press from 1981 to 1985 (Volumes 1–4). Research and other technical papers are refereed by a panel of experts in the field of tunnelling and underground space technology.
